

Community Leisure Activities

The community leisure activities option is all about exploring physical activities that are available to students within the local community.

The aim is for students to experience different ways to spend their leisure time out of school.

* Please note pictures are for reference and example only, we will choose the specific activities for each module to suit the needs and abilities of the group of young people.

Community Leisure Activities

Through these experiences we can work with students to help them express their own views and identify activities and places in the community that they like and enjoy spending time in.

This can be an important tool for young people as they approach adulthood and opportunities to spend more time in their local community.
