

STEM / Design & Technology

St George's Secondary Special School is expanding!

Education is transforming on the Isle of Wight, and you could be part of this change. We are opening the first SEMH provision on the Island, in East Cowes. This will be a satellite of St George's School. We need a STEM/Design & Technology teacher/instructor. Come and make a real difference, to the lives of our young people and be part of an exceptional school.

If you are interest call
01983 524634 or visit
the school website
[https://stgeorges-
school.co.uk/](https://stgeorges-school.co.uk/)

The Isle of Wight offers an outstanding quality of life, with breath taking
countryside, including picture postcard villages and seaside living.

Teachers benefit from discounted travel!
